

Podium Floor

Take a stand against customer theft

Prevent customer theft more effectively
by accessing your store's surveillance system
anytime, anywhere on the shopfloor

Key Benefits

Replaces heavy, bulky lecterns with an elegant,
small footprint alternative

Integrates wirelessly with existing surveillance
(CCTV, EAS) systems

Simple to install

Highly portable: can be moved around the
shopfloor with little effort

Super easy to use: select / control cameras
and record / playback video with the
tap and swipe of a finger

Secure: encrypted communications and
strict sign-in / sign-out procedures

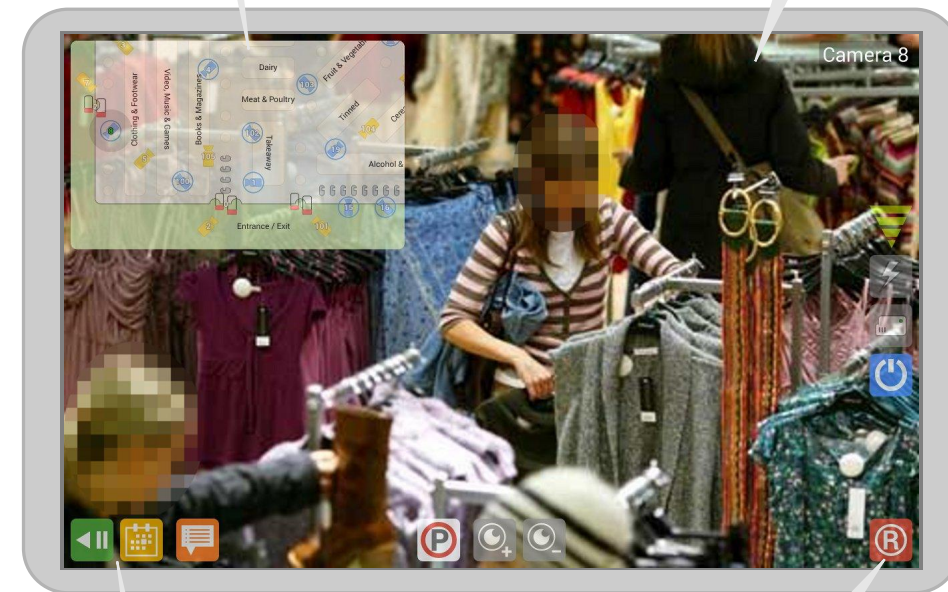

Great support: contact the Company's
founder with questions and issues

Shopfloor Map

A map of the shopfloor shows where
CCTV cameras and EAS antennae are
located. A user can scroll around the map
with the swipe of a finger, and tap a
camera's icon to select and
control it

Video

Live video from the selected camera
is displayed full-screen. A user can pan / tilt
the camera with a swipe, and zoom with a
pinch. Also, full-screen recorded video
can be played-back with simple
taps and swipes

Playback Video

A user can playback the most recently
received live video by tapping the **Replay**
icon. Recorded video can also be played-
back by tapping the **Calendar** icon and
selecting a listed recording

Record Video

A user can start / stop recording live
video by tapping the **Record** icon. Video is
stored locally on Podium, but can be
uploaded to the cloud for secure and
long-term storage
